**Participants are required to have:**

- A minimum of ten years of experience
- At least 3 years of experience managing projects related to technology, innovation, or business development
- International experience is appreciated

# Learning Journey

Program Outline

**Module 1** | **Leadership & Innovation**
8 weeks

With this module, participants will learn to lead by coming to know themselves better, harnessing their own creativity, and building teams and organizations through the culture of innovation.

**Module 3** | **Blockchain: Disruptive Technologies**
8 weeks

Take a deeper look at the many applications that Blockchain has in all industries and businesses in order to prepare participants to develop and lead Blockchain projects.

**Module 5** | **Data Leadership**
8 weeks

The overarching goal of data leadership is to make relevant and dormant data accessible to decision-makers at every level of the organization. It serves to recognize and anticipate market changes, and therefore respond quickly to trends and changes in customer preferences.

**Module 2** | **Digital Transformation: From AI and IoT to Cloud, Blockchain, and Cybersecurity**
8 weeks

Given that our economy is currently undergoing a rapid evolution, professionals need to immerse themselves in technological environments in order to understand the technologies that are driving this change.

**Module 4** | **Digital Platforms: Designing Two-Sided Markets from APIs to Feature Roadmaps**
8 weeks

Digital platforms and two-sided markets have quickly established themselves as a staple of modern business, presenting new opportunities and challenges alike for engineers, product managers, regulators, and entrepreneurs.

## Impact Project

A crucial aspect of the program enables you to apply your learnings to a real-world challenge as you gain insights into the opportunities awaiting a Chief Digital Officer.

**1 Premium Access / MIT Professional Education ecosystem**

Get exclusive access to networking events, live online sessions with speakers and international MIT Alumni network.

**2 Professional Development**

In turn, you will have the support of a specialized career development coach who will help you enhance and elevate your professional career.

**3 Access to the Digital Pathway**

Includes over 90 webinars on diverse topics and industry themes. That is around 5520 minutes of expert knowledge.
