Program overview

Companies increasingly rely on analysts and data scientists to convert data into actionable insights to remain competitive. The Wisconsin Business: Data, Insights and Analytics MicroMasters program will help jump-start your career as an analyst where you will gain skills in data visualization, database management, statistics, programming, and cloud computing.

Founded in 1900, the Wisconsin School of Business established one of the first five business programs in the nation. Wisconsin faculty and staff are committed to helping you achieve your professional goals and work to get you on the path to career success.

The ability to turn data into decisions is crucial in our fast-paced world, and as a business analyst you can learn to leverage data to answer complex business questions.

Certificate & credit pathways

What is a MicroMasters Program?
MicroMasters programs are a series of graduate level courses from top universities designed to advance your career. MicroMasters program certificates showcase deep learning and in-demand skills to employers and can help you get started on a path toward completing an advanced degree.

How to Earn a MicroMasters Program Certificate
To earn the program certificate, learners must successfully complete and earn a verified certificate in all three of the MicroMasters program courses.

From Program Certificate to a Master's Degree

MicroMasters programs are designed to offer learners a pathway to an advanced degree and can count as credit toward completing a Master's degree program. Learners who

Program Availability

Unfortunately, learners residing in one or more of the following countries or regions will not be able to register for this program: Iran, Cuba and the Crimea region of Ukraine. While edX has sought licenses from the U.S. Office of Foreign Assets Control (OFAC) to offer our programs to learners in these countries and regions, the licenses we have received are not broad enough to allow us to offer this program in all locations. edX truly regrets that U.S. sanctions prevent us from offering all of our programs to everyone, no matter where they live.
